

BRAKE PADS AND LININGS

CERAMAXX

Innovation in brake pad technology

- Ultra-premium ceramic friction material
- Fras-le *Wheel-Klean* Technology (WKT)
- Maximum noise reduction control
- OEM performance

For more than 50 years, Fras-le has been providing Safety in Motion Control. Supplying OEM & AFTERMARKET products on all continents, Fras-le is one of the largest friction material companies in the world.

Using the most advanced engineering, the finest raw materials and state-of-the-art production processes, Fras-le has developed a ceramic brake pad which exceeds driver expectations. Fras-le Ceramaxx delivers maximum noise control and dust reduction. This unique disc brake pad is designed to promote outstanding performance and confident pedal feel. Ceramaxx, an ultra premium brake pad at an affordable price.

A GLOBAL LEADER IN BRAKE TECHNOLOGY & INNOVATION

CERAMAXX

Advanced OEM under-layer friction material for thermo-neutralization, enhanced adherence and noise control (when required)

Precision fit shims for quieter braking (where applicable)

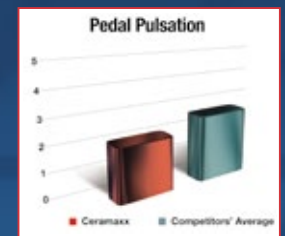

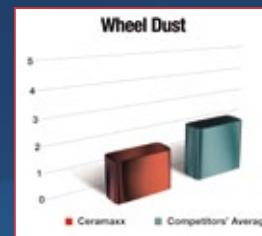

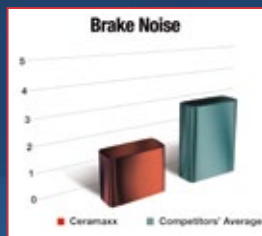

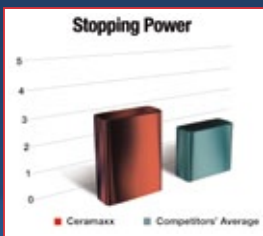

OE Quality powder coat finish for exceptional corrosion protection

Ultra-premium quality friction material provides durability and performance

Precision designed Chamfers for NVH control (where applicable)

- Caliper hardware kit included (where applicable)
- High temperature resistant moly lube included

- O.E.M – Original Equipment
- **FIT Technology** – Fras-le Integrated Positive Mold Technology
 - 100% asbestos-free formulation – NAO – Ceramic
 - Wide range of coverage
 - Platform-specific friction formulations
 - Powder coat finish for corrosion resistance
- Designed to reduce NVH (Noise, Vibration and Harshness)

Safety in Motion Control
